

Description: PLATE MOUNTING TAPES

Product: 3M, TESA, HARLEY & ADHESO GRAPHICS

Conversource is the converter's source for plate mounting tapes from the industry leaders - 3M, Tesa, Harley and Adheso Graphics. We stock each company's complete line of mounting tapes insuring immediate shipment of exactly what you need, when you need it.

Custom Cut - We stock all mounting tapes in the widest widths available from each manufacturer, often as wide as 54" master rolls. Many distributors require the purchase of a complete width of a roll of mounting tape. From Conversource, you specify the exact width you need, we cut exactly what you want and you'll pay for exactly what you get. You'll save money because you won't have unusable narrow offcuts on your shelf.

Technical Assistance - Conversource can help you select the best plate mounting tape for any application. Our trained personnel can also assist with technical printing and production questions.

3M offers the broadest selection of mounting tapes for virtually any flexographic or rotary letterpress printing application. Offering mounting tapes with either vinyl (hard) or foam (compressible) carriers, 3M can provide the perfect mounting tape for any job.

Tesa, of Germany, offers a broad range of premium flexographic and letterpress plate

mounting tapes for the highest printing quality possible.

Harley is the popular green mounting tape that's been a favorite for decades. The low density foam carrier provides minimal dot gain when printing process or vignettes.

Adheso Graphics offers a number of excellent plate mounting tapes. They specialize in hard vinyl mounting tapes and cylinder build-up tapes.
